

Our supply and service program for EPS-Block-Moulding:

- material conveyors
- storage silos
- discontinuous pre-expansion-plant
- continuous pre-expansion-plant
- block moulding machine EBV –
L/W/D with fixed block-dimensions
- block moulding machine EBV-FB –
L/W-W1/D with changable block-dimensions
- block storage and block transport systems
- complete recycling stations
- mixing stations for effective use
of recycling material
- printing equipment
- vacuum cooling systems
- complete production supplying

- production data acquisition –
order administration
- concept and system design
- consulting to optimize production data
- EMSN – Erlenbach Maschinen Service
Network

EPS-Block-Moulding

Information about the design
of a complete production plant
