

Our supply and service program for EPS-Moulding:

- material conveyorse
- storage silos
- discontinuous pre-expansion-plant
- continuous pre-expansion-plant
- modern moulding machines
- special custom moulding machines
- deloading and stacking systems
- special handling systems
- moulds and accessories
- injectors and pressure filler systems
- complete recycling stations
- mixing stations for effective use
of recycling material
- printing equipment
- vacuum cooling systems
- complete production plants

- production data acquisition –
order administration
- concept and system design
- consulting to optimize production data
- EMSN – Erlenbach Maschinen Service
Network

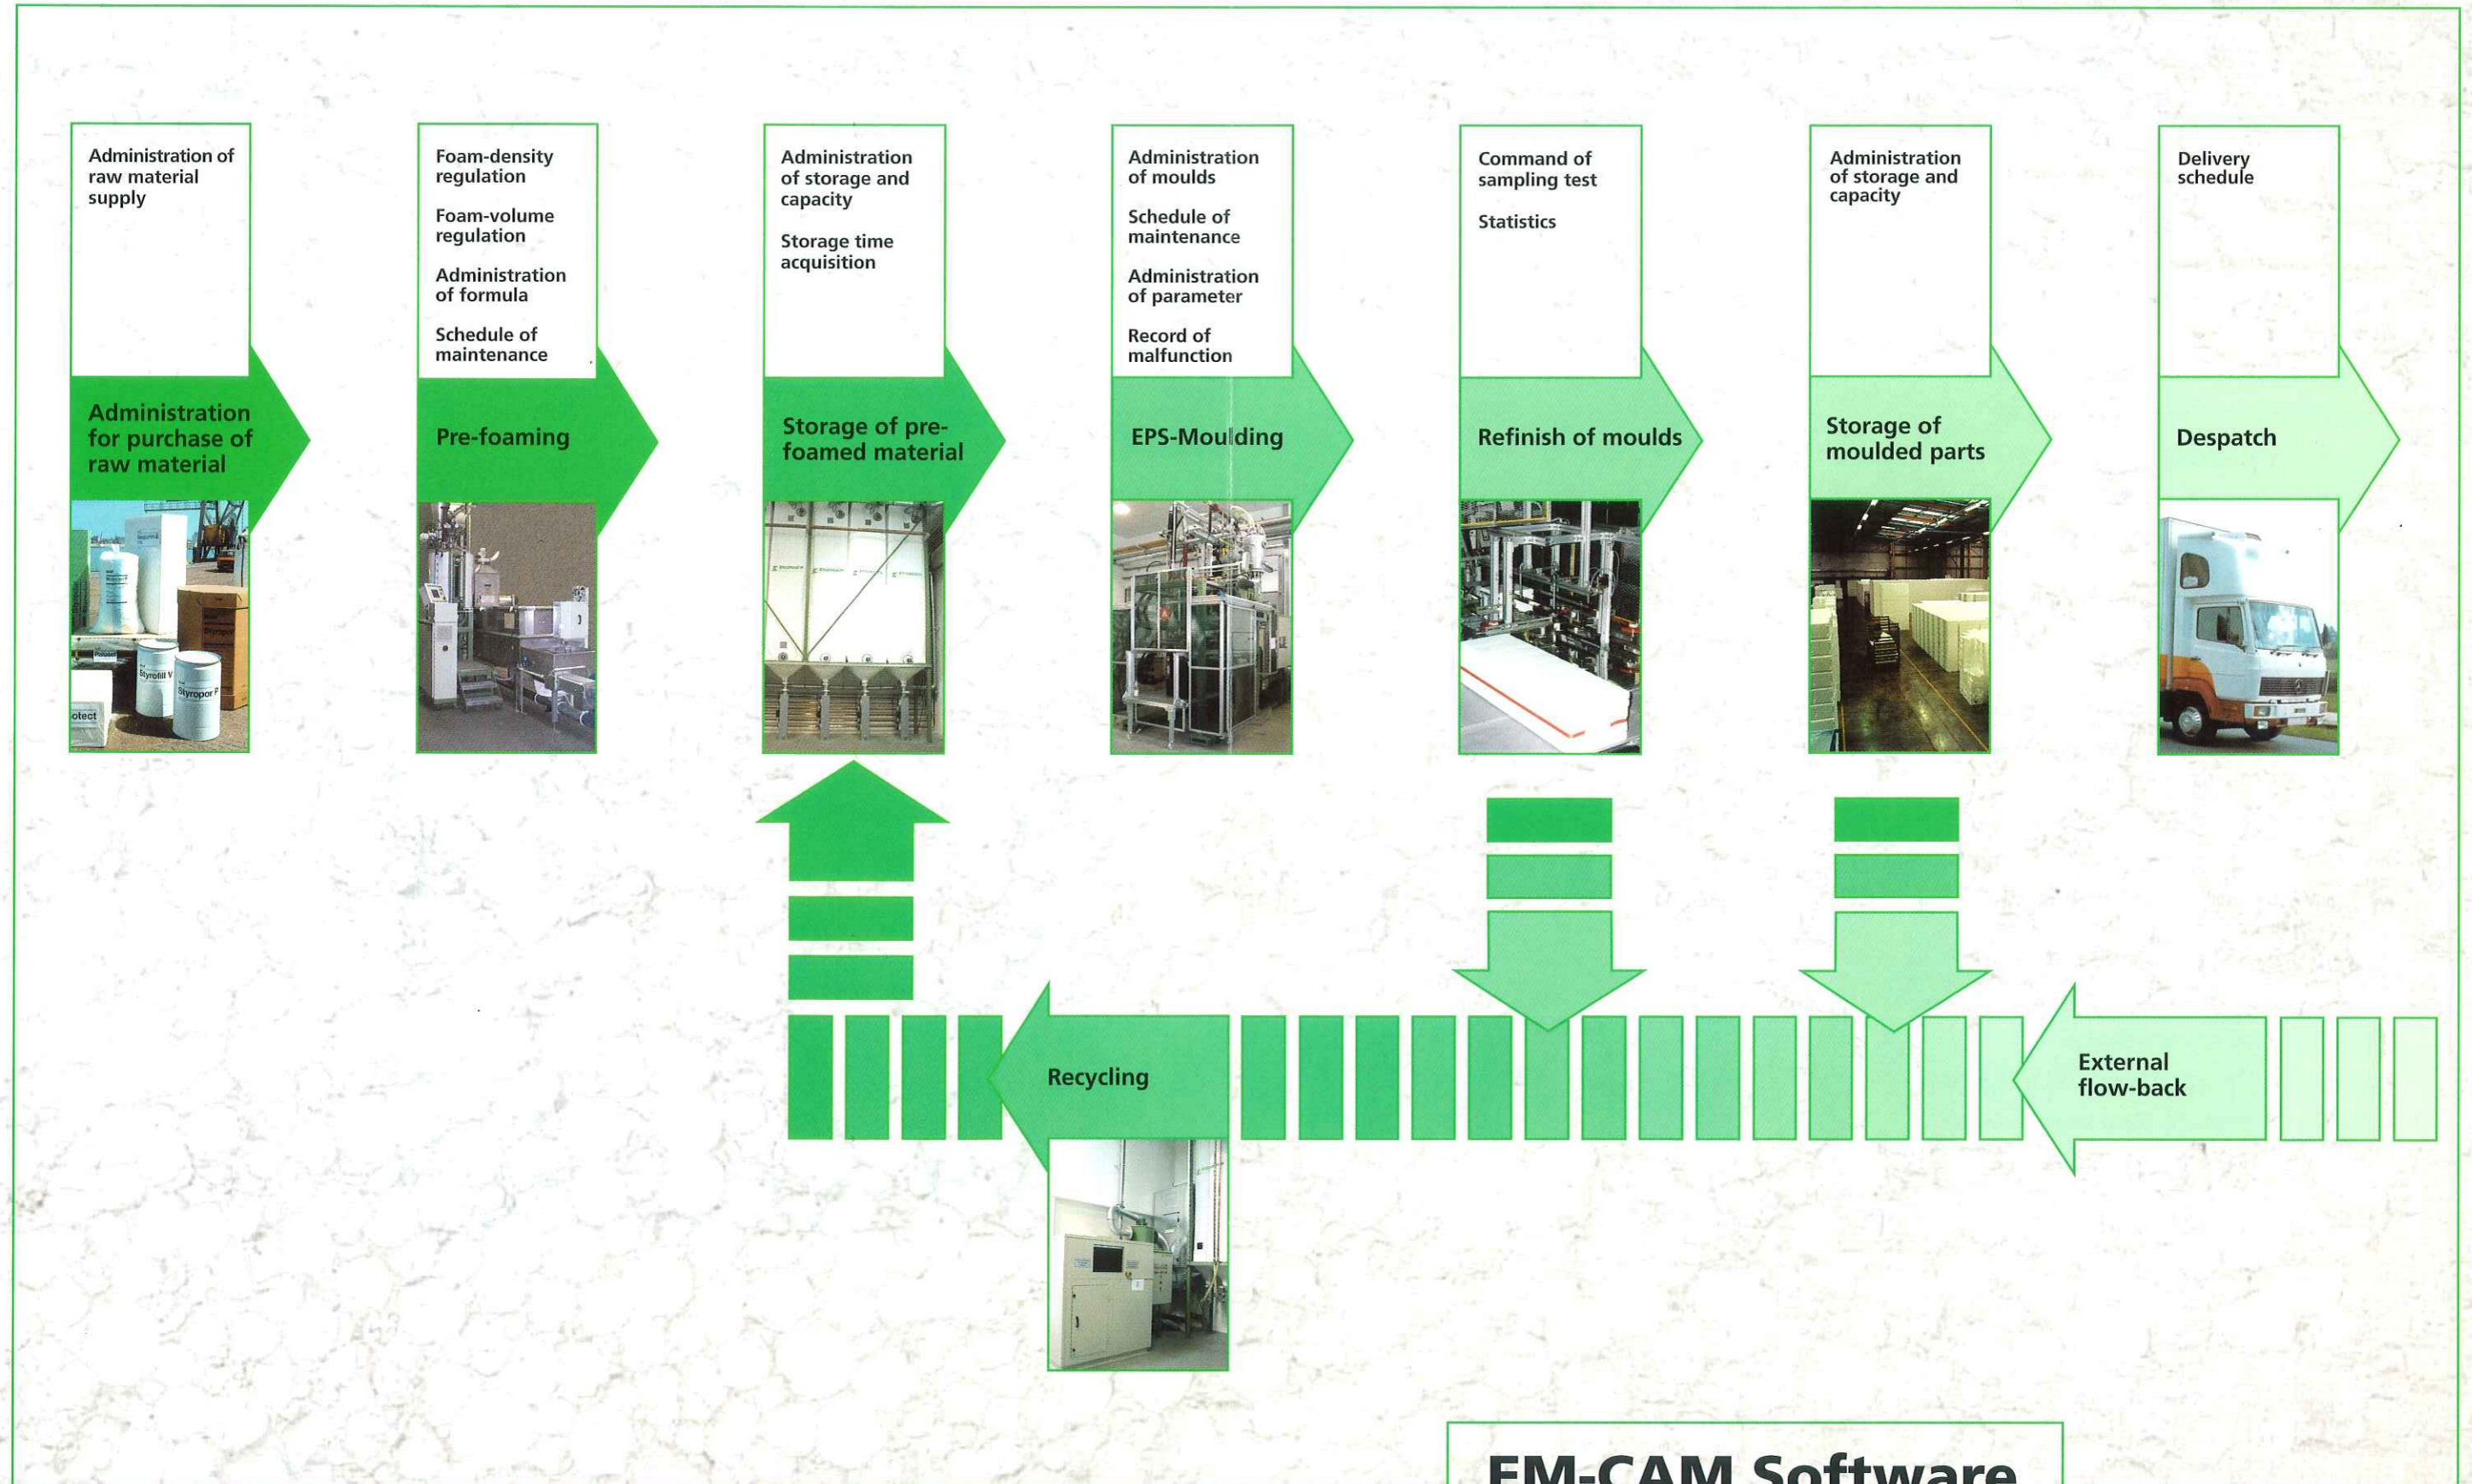

EPS-Moulding
